

Digital video recorder \$599

STRONG Technologies' SRT 5492 high-definition twin tuner terrestrial receiver and digital video recorder (above) outguns and undercuts the better-known TiVo DVR, which has a 160GB hard drive and a \$699 rrp. Besides being \$100 cheaper, Strong's SRT 5492 has a 500GB hard drive and all the features you need, such as the ability to record two programs at once while watching a third, an electronic program guide (including Ice TV) and a LAN connection.
