

March 2009 Information Update!

Another First by  
**STRONG**

**OUR DIGITAL TV RECEIVERS ARE GOING GREEN!**

As part of our contribution towards a Greener Planet, **STRONG** receivers have started complying with Australia and New Zealand's **MEPS** (Minimum Energy Performance Standards) requirements.

**STRONG** is among the first companies to implement compliance to **MEPS** requirements, as adopted by the Australian Government.

**MEPS** requirements have been in place for several years now, applicable to many household appliances. They now apply to TV receiving equipment, as well.

## **STRONG** MEPS Compliant Receivers

**SRT 4661X**  
**SRT 4663X**  
**SRT 4664X**  
**SRT 4668X**

**SRT 5405E**  
(imminent release)
